### Supporting Early-Career Researchers with Open Science

---

*Guest: Eva Hnatkova, Open Science Coordinator  
at the National Library of Technology and University  
of Chemistry and Technology in Prague*

---

Open Science is a new way of conducting research by opening up access to research data and results via new digital technologies and collaborative tools. Early-career researchers play an important role in the shift to Open Science, but many of them are still unaware of what Open Science is and how to practice it. So, we will discuss how we could support them.
